

## Instructions to prepare your poster

Your poster should be adapted to the A0 format:

118.9 cm (height) x 84.1 cm (width)  
or 46.8 in (height) x 33.1 in (width)

Orientation should be "Portrait" (i.e. vertical, not "Landscape")

See poster size and orientation on the image on the left.

Adhesives for posting will be provided by the organisers.

The title of your poster should be the same as the title that appears on your abstract.

Authors' names should be included on the poster.

Your poster (to be written in English) should be a stand-alone visual representation of your submitted abstract.

Your text should be concise and easy to read.

Enhance your message with colour pictures, drawings or photographs, and by presenting results and concepts graphically.

The poster should be readable from a distance of about 2 m (78 in). Recommended font size is 48- to 60-point for headings and 24- to 32-point for the text itself.

Figures should not be smaller than 20 x 20 cm (about 8 x 8 in) and all figures require short, informative captions.

Authors will be asked to attend their poster during the allocated poster viewing time to discuss their work with other delegates.

**Please note that you are responsible for the printing of your poster.**

Thank you for your contribution to the 4<sup>th</sup> World Congress on Agroforestry!
